## MSFT-0285(167501.2)

**PATENT** 

IN THE CLAIMS:

Please amend the claims as follows:

- 1. A computer-readable medium having comprising computer readable instructions to instruct a computer to process a data structure stored on the computer-readable medium, wherein the data structure comprises one or more fields containing the information that describes a first musical composition, the computer-readable medium further comprising computer-readable instructions for selecting the first musical composition from among the plurality of other musical compositions that are similar to the first musical composition, wherein the information comprises a plurality of classification values that distinguish among features of the musical compositions.
- 67. A method as recited in claims 66, in which the <u>first</u> object is a pre-recorded motion picture.
  - 68. A method as recited in claims 66, in which the <u>first</u> object is a book.
  - 69. A method as recited in claims 66, in which the <u>first</u> object is a television program.
  - 70. A method as recited in claims 66, in which the <u>first</u> object is a beverage.
  - 71. A method as recited in claims 66, in which the first object is a work of art.
